

TACKER GUN & CLIPS

Product Datasheet

Tacker gun is an ergonomic device used for an effective fixing of underfloor heating pipe using tacker clips. The device has an appropriate adjustment system which protects the clips from falling out and allows to set the force of the arm returning to the base position. The tacker clips are used to fasten the underfloor heating pipes to insulation. The taker clips are 40mm.

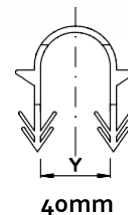

THE ADVANTAGES OF WORKING WITH A TACKER GUN:

- reduced assembly time
- high efficiency and comfort
- device reliability
- high installation precision
- ease of usage
- solid construction and high-quality materials ensure long-term use
- resistance to damages
