

PREMIUM WI-FI THERMOSTAT

The premium wi-fi thermostat is a programmable smart digital thermostat, controlled by either an app on your smartphone or can be directly controlled using the five soft touch icons along the bottom. The smooth tempered glass display offers a sleek and contemporary look.

There is no need for an additional router, simplifying installation, time, and cost. The globally recognised Smart Life app makes installation and set-up fast and simple.

An energy saving mode is built in. This override gives end users a manual or timed set back function, automatically reducing set temperature to a pre-selected level at a selected time, ideal for holiday or vacant occupancy.

Comes with a 5 year guarantee from date of install.

Premium Wi-Fi thermostat features:

- Open window detection
- Icon lock to prevent misuse
- Set min/max temperatures in regular use
- Weekly planned cycles with 5 working days and 2 separate weekend choices. Each day can be set to 6 cycles of on and off
- Highly accurate internal temperature sensor, adjustable in 0.5° increments
- Designed to be used as a room or zone thermostat
