

CASTELLATED SYSTEM

The castellated system provides a quick, flexible and effective form of heating within a screeded floor build up, as well as minimising the height of the overall floor construction.

The panel is a moulded plastic panel, with an overall depth of 20mm - the 'castles' are spaced at 50mm intervals to provide a consistent fixing point and enabling a fast and neat pipework installation.

The panel measures 121cm x 81cm

Product Codes:
HOR/CAST/1210-810/16:
CASTELLATED PANEL FOR 16MM PIPE

5 YEAR GUARANTEE
