

MEMBRANES

Vapour barrier protects the layers of the floor structure from moisture contained in the concrete screed during its hydration and seasoning.

We also supply a gridded underfloor heating membrane. Each roll has a printed grid as standard, giving correct pipe and clip spacing every time.

Technical Data:

- Length: 50m
- Width: 4m

Product Codes:

HOR/VB-125MU/200: VAPOUR BARRIER

HOR/GRM-1.2-100/120SQM: GRIDDED MEMBRANE
