

PIPE BENDS

The pipe bends' support allows the installer to bend heating pipes in a 90 degree bow without forming kinks which impede flow within the pipe.

It's elbows can be used to guide pipes through floors, ceilings and to a manifold cabinet. It holds the pipe and directs it to the manifold

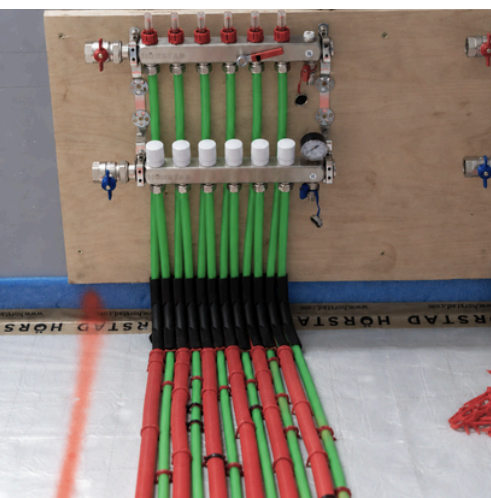

Product Codes:

HOR/PB-90/25-12: 12MM BENDS

HOR/PB-90/25-16: 16MM BENDS

HOR/PB-90/25-20: 20MM BENDS
