

PIPE DE-COILERS

 **INSTALL
TOOL**

A pipe de-coiler is used for quick pipe unrolling during the installation of underfloor heating. The device facilitates and speeds up the work for an installer and increases the comfort of work.

The pipe is placed on the de-coiler and will not get tangled or crushed. Easy assembly and disassembly of the device allows for quick moving from place to place.

Product Codes:

HOR/PDC-600: PIPE DE-COILER
